<b>1</b>	<b>Introduction</b> .....	1
	References .....	20
<b>Part I Novel Insights About Accelerated Motion: The Challenge of Swinging and Rolling</b>		
<b>2</b>	<b>Before Natural Acceleration</b> .....	25
2.1	Velocity, Motion as a Changing Quality, and Galileo's Early Account of Acceleration .....	28
2.2	Motion Along Inclined Planes and Dynamics .....	42
	References .....	57
<b>3</b>	<b>A Glimpse at a Challenging Research Agenda: Galileo to Guidobaldo del Monte in 1602</b> .....	61
	References .....	72
<b>4</b>	<b>Sparking the Investigation of Naturally Accelerated Motion: The Pendulum Plane Experiment</b> .....	75
4.1	Experimenting with Swinging and Rolling .....	77
4.2	The Experiment in Context .....	82
4.3	The Single Chord Hypothesis as Starting Point .....	86
4.4	Summarizing Conclusion .....	93
	References .....	94
<b>5</b>	<b>Squaring the Pendulum's Arc: Motion Along Broken Chords</b> .....	97
5.1	Toward a Proof of the Law of the Broken Chord .....	99
5.2	Expanding on the Law of the Broken Chord .....	116
5.3	Tackling the Problem of Motion on an Arc: The Broken Chord Approach .....	120
5.4	Summarizing Conclusion .....	140
	References .....	143

<b>6</b>	<b>Swinging and Rolling Revisited: Motion Along Broken Chords and the Pendulum Plane Experiment</b> .....	145
6.1	Reevaluating the Experimental Data Under a New Conceptualization .....	147
6.2	The Pendulum Plane Experiment from a Modern Perspective ...	152
6.3	Swinging and Rolling: From Promising Start to Dead End.....	159
	References.....	167
<b>7</b>	<b>Accumulating Insights: The Problem of Motion Along Broken Chords Driving Conceptual Development</b> .....	169
7.1	A New Technique for the Diagrammatical Representation of Motion .....	170
7.2	The Length Time Proportionality as a Spin-Off.....	182
7.3	Bent Planes Traversed in Least Time .....	188
7.4	Galileo's Considerations on Motion Along Bent Planes as the Source of New Propositions .....	196
7.5	Summarizing Conclusion .....	204
	References.....	207
<b>8</b>	<b>Toward a Foundation: The Ex Mechanicis Proof of the Law of Chords</b> .....	209
8.1	The Formation of the Ex Mechanicis Proof of the Law of Chords .....	211
8.2	The Role of the Ex Mechanicis Proof for the New Science of Motion .....	227
8.3	The Origin of the Law of Chords as a Heuristic Assumption.....	233
8.4	Summarizing Conclusion.....	237
	References.....	239
<b>9</b>	<b>Whatever Happened to Swinging and Rolling: Faint Echoes and a Late Insight</b> .....	241
9.1	The Brachistochrone Argument .....	243
9.2	A Reply to Baliani Drafted ca. 1638: An Unexpected Twist of Swinging and Rolling .....	252
9.3	Summarizing Conclusion.....	265
	References.....	267
 <b>Part II Novel Insights and Old Concepts: From Exploration to Formalization</b>		
<b>10</b>	<b>Toward a New Science: Gathering Results and the Rise and Demise of a Dynamical Foundation</b> .....	271
10.1	The Star Group Folios: A First Step Toward a New Science .....	273
10.2	The Rise and Demise of a Dynamical Foundation .....	307
10.3	Summarizing Conclusion.....	314
	References.....	316

<b>11</b>	<b>Toward a New Science: Axiomatization and a New Foundation</b> .....	317
11.1	1602: Immersed in Foundational Problems .....	319
11.2	The 1602 Foundational Situation in Context .....	337
11.3	Toward a New Foundation in 1604 .....	349
11.4	Summarizing Conclusion .....	354
	References .....	357
<b>12</b>	<b>Conclusion: The Emergence and Early Evolution of Galileo's New Science of Motion</b> .....	359
<b>13</b>	<b>Appendix: Folio Pages</b> .....	369
13.1	Folio 90 .....	370
13.2	Folio 115 .....	372
13.3	Folio 121 .....	374
13.4	Folio 129 .....	376
13.5	Folio 130 .....	379
13.6	Folio 148 .....	386
13.7	Double Folio 149, 150 .....	392
13.8	Folio 151 .....	396
13.9	Folio 153 .....	400
13.10	Folio 154 .....	402
13.11	Folio 155 .....	405
13.12	Double Folio 156, 157 .....	408
13.13	Folio 166 .....	413
13.14	Folio 167 .....	420
13.15	Folio 176 .....	423
13.16	Folio 183 .....	427
13.17	Folio 184 .....	429
13.18	Folio 185 .....	435
13.19	Folio 186 .....	439
13.20	Folio 189 .....	442
13.21	Folio 192 .....	454
	References .....	457
<b>14</b>	<b>Appendix: Documents</b> .....	459
14.1	Letter from Paolo Sarpi to Galileo, 2 September 1602 .....	459
14.2	Letter from Galileo to Guidobaldo del Monte, 29 November 1602 .....	461
14.3	Letter to Paolo Sarpi, 16 October 1604 .....	465
14.4	Draft of a Reply to Baliani Composed ca. 1640 .....	467
	References .....	470
	<b>Index Locorum</b> .....	471
