Kärin Nickelsen
(Ludwig-Maximilians-Universität)

R. 265 & ZOOM
13:30–15:00

The Department Colloquium consists of regular meetings where members of the department “Artifacts, Action, Knowledge” discuss and provide feedback on each other’s work in progress and help each other in the writing process. Each session is a group discussion over a pre-circulated paper and opens with an introductory comment by an external discussant. Those outside of the department who wish to participate are required to register to receive the paper and Zoom link. Please scan the QR code to register.
